Materials needed to make an enchanted diamond pick in Minecraft, these are the materials you can use to make an enchanted diamond pick. Enchantments for Diamond Pickaxe in Minecraft. You can enchant a diamond pickaxe with the following enchantments: Enchantment Description Curse of Vanishing Cursed item will disappear after the player dies Efficiency Increases the speed at which you can mine Fortune Increases block drops from mining Mending Uses xp to repair your tools, weapons and armor Silk Touch Mines hhangs (fragile items) Unbreaking Increases the durability of the article See a full list of Minecraft enchantments Steps to enchant the diamond pickaxe 1. Open the enchanting table first, open your enchanting table to have the Enchant menu that looks like this: 2. Enchant the diamond pickaxe in the Enchant menu, place the diamond pickaxe in the first box. Then place 3 lapis lazuli in the second box. TIP: In Creative mode, you don't need to place lapis lazuli in the Box. Once you've placed your diamond pickaxe and lapis lazuli in both boxes, you'll see the enchantment slots display up to 3 enchantment options. Each enchantment will display a number on the right which is the number of experience levels you need to have to unlock and display the enchantment (this is not the cost of applying the In this example, the first enchantment is unlocked if you have 7 experience levels, the second is unlocked if you have 14 experience levels, and for the third enchantment, you need 30 experience levels to unlock it. The higher the experience points required to unlock the enchantment, the better the enchantment. If you don't have enough levels, you can still earn more experience points by killing crowds or using the /xp command. TIP: If you pass over the slot, you will see the name of the enchantment and the cost. When you hover over the third enchantment, it says Silk Touch I and the cost of enchantment is 3 lapis lazuli and 3 enchantment levels (i.e.: 3 levels on your experience bar). Silk Touch I is one of the 3 enchantments you can choose from the enchanting table. Select the enchantment you want to apply to the diamond pickaxe. Once you have selected an enchantment, your lapis lazuli and experience points will be spent and the diamond pickaxe will shine purple. You can hover over the enchanted diamond pickaxe to see its new powers. TIP: Very often, the enchanting table will add more than the enchantment originally chosen. So you could end up with an object that is enchanted by 2 or 3 enchantments (or maybe even 4 enchantments!) The diamond pickaxe is now an enchanted diamond pickaxe and you can put it back in your inventory. Congratulations, you made an enchanted diamond pick in Minecraft! Sustainability attack damage and attack damage is the amount of damage the item will deal with when attacking a crowd. Sustainability represents the life of the item. For tools, weapons and transportation, sustainability is the number of useful actions before the item is destroyed. For armored objects, durability is the number of moves (which can be blocked by armor) before the object is destroyed. Thus, the higher the number of durability, the longer the item will last. The following table shows the attack damage and durability of each pick in Minecraft: Other enchanted objects in Minecraft, you can make other enchanted objects such as:
